

**Amendments to the Specification:**

Please add the following new paragraph after the paragraph ending on line 58 of Column 1:

As used through this disclosure, the term “gray-water” is meant to include non-potable water. Illustrative examples of such non-potable water include water reclaimed from a prior use (showers, sinks, washing machines, dishwashers and the like), or may come from other sources prior to treatment for human consumption (wells, dams, rivers, lakes, and the like).
